EXCLUSIVE OPPORTUNITIES

Speech session provides you with a great opportunity to present your in-depth expertise of the industry to a highly receptive and important audience

Meeting in the VIP zone with the first persons of the companies opens the way to discussing business issues directly affecting the signing of the contract in the future

The exhibition at the conference is a tremendous opportunity to hold a hundred business meetings for two days, the effectiveness of participation is obvious: to reveal the merits of your product / service in the right light; get a direct connection with the client

CULTURAL NETWORKING IN IMPERIAL RESIDENCES:
you touch the history of the imperial family and how the emperor
once - discuss business issues with partners

WHAT IS OUR CONFERENCE?

the conference offers an open discussion, accompanied by an analysis of the history of cyber risks, real examples and case studies, practical dialogues with experts of the international market of cybersecurity

the conference is a compelling narrative and promotes a lively dialogue that inevitably addresses the topic of operational risk and specific business issues of concern to those responsible for cybersecurity in different areas of activity

the conference forms an open dialogue on the implementation of innovative industry solutions using blockchain technologies and will present for general discussion projects aimed at improving financial climate as a whole

start-ups-based on blockchain technologies, will catalyze completely new paradigms for the sale and administration of services in various areas of intermediary financial activity, building a corridor of trust between all parties to the transaction
